

**\*Notes:**

1. There are no benchmarks identified for Diagnostic Imaging.
2. Not all events have a date scheduled when originally submitted.
3. Events are scheduled based on patient availability or facility availability.
4. Off Date is when the event was updated and removed from the system.
5. These events are for non-urgent elective patients; urgent events are not included in the AWTR application.
6. This data does not track the wait time to specialist; it is from Decision to Treat to Treatment date/cancellation/death.
7. What is not accounted for within this data, and can impact wait times, are people that may have had the intervention completed through an emergency event or had other criteria that had to be met prior to completion. The AWTR event is not updated at that time and the wait continues until further investigation and the event is updated at some future point in time.

DECISION DATE	SCHEDULED DATE	DECEASED DATE	OFF DATE	DAYS WAITED	CATEGORY	BENCHMARK
