

***Notes:**

1. Green highlight indicates that this is the same person for a 1st eye and 2nd eye Cataract Surgery.
2. Only Cataract Surgery has an intervention defined outside of the Category.
3. Only categories with a defined Benchmark will have the Benchmark identified.
4. Not all events have a date scheduled when originally submitted.
5. Events are scheduled based on patient availability or facility availability.
6. Off Date is when the event was updated and removed from the system.
7. These events are for non-urgent elective patients; urgent events are not included in the AWTR application.
8. This data does not track the wait time to specialist; it is from Decision to Treat to Treatment date/cancellation/death.
9. What is not accounted for within this data, and can impact wait times, are people that may have had the intervention completed through an emergency event or had other criteria that had to be met prior to completion. The AWTR event is not updated at that time and the wait continues until further investigation and the event is updated at some future point in time.

DECISION DATE	SCHEDULED DATE	DECEASED DATE	OFF DATE	DAYS WAITED	INTERVENTION	CATEGORY	BENCHMARK
20-Jan-2020		19-Nov-2020	03-Dec-2020	318	2nd eye	Cataract Surgery	112 days
