Surgical cancellations between 01-Apr-2019 and 31-Mar-2020 where the reason for cancellation was death of the patient

The information is based on 22-Nov-2020 refresh of the Saskatchewan surgical registry data mart. There are 248 records for this time period.

The Date of Referral to Surgeon is not a mandatory field so is missing for most records.

The Booking Date is the date that the booking form was received by surgical scheduling office.

The Cancellation Date is the date when the surgical booking was removed from the wait list. The cancellation date may not be the date of death. It could be the date that the cancellation was recorded in the system.

A cancellation due to patient death does not necessarily infer that they died because they were waiting for surgery. For example 48% of these cancellations were for patients waiting for cataract surgery which is a non-fatal condition.
