Enclosure

Data* re: FOI# 2021-006; number of patients that died while on a waiting list for surgery or a procedure in fiscal year 2020-21.

Lakeridge Health’s surgical procedure wait times are measured against the targets set by the provincial government. Information on provincial wait time performance and standards is published on the Health Quality Ontario (Ontario Health – Quality) website.

For ease of reference, please see the links below for further information:

- Wait time performance: <https://www.hqontario.ca/System-Performance/Wait-Times-for-Surgeriesand-Procedures>
- FAQs: <https://www.hqontario.ca/System-Performance/Measuring-SystemPerformance/Questions-and-Answers-on-Wait-Times>

We also invite you to see our 2020 Annual Report published at: <https://www.lakeridgehealth.on.ca/en/newsandevents/resources/Annual-Report-2020/LH---Annual-Report-2020-Final-tagged.pdf>. The report highlights several statistics, including the 51,072 surgeries that occurred at Lakeridge Health in fiscal year 2019/20.

ID	Referral Date	Service Detail 1	Decision To Treat Date	Consult Date	Wait 2 Access Target (Days)	Last Update Date

***Interpretation Notes:**

- Based on Health Card Number (not provided herein), some patients had two entries in the wait list, usually for multiple procedures such as MRI+CT, or CT Abdomen + CT Thorax, etc. As such, the total number of rows is not equal to the total number of unique patients.
- Please note that this report cannot be used to determine a correlation between the wait time for diagnostic imaging and patient death.
- The information attached is representative of the cancellation date entered in the system for patients that died while on a wait list in FY2020/21, which may not be reflective of the specific date the patient died. Instead, this cancellation date represents when the wait list entry was cancelled or last updated.
- Further, please note that some scheduled procedures may have been in the process of being scheduled (01/01/9999) or rescheduled at the time of the patient's death. In the case of the latter, scheduling may have been on hold pending a determination of readiness to proceed.
- Generally, scheduling may be impacted for a number of reasons, including patient-specific medical and non-medical circumstances such as: awaiting patient recovery, maturation (in the case of paediatric patients), medical stability (fitness for surgery), further work-up/testing results, other procedures and/or patient deferral. 'Days Affecting Readiness to Treat', as these aforementioned scenarios are termed in the Wait Time Information System (the source of this data), are not included herein.

*Interpretation Notes:

- Based on Health Card Number (not provided herein), some patients had two entries in the wait list, usually for multiple procedures such as MRI+CT, or CT Abdomen + CT Thorax, etc. As such, the total number of rows is not equal to the total number of unique patients.
- Please note that this report cannot be used to determine a correlation between the wait time for diagnostic imaging and patient death.
- The information attached is representative of the cancellation date entered in the system for patients that died while on a wait list in FY2020/21, which may not be

reflective of the specific date the patient died. Instead, this cancellation date represents when the wait list entry was cancelled or last updated.

- Further, please note that some scheduled procedures may have been in the process of being scheduled (01/01/9999) or rescheduled at the time of the patient's death. In the case of the latter, scheduling may have been on hold pending a determination of readiness to proceed.
- Generally, scheduling may be impacted for several reasons, including patient-specific medical and non-medical circumstances such as: awaiting patient recovery, maturation (in the case of paediatric patients), medical stability (fitness for surgery), further work-up/testing results, other procedures and/or patient deferral. 'Days Affecting Readiness to Treat', as these aforementioned scenarios are termed in the Wait Time Information System (the source of this data), are not included herein.
