Please note:

Freedom of information legislation provides a right of access to information and data we hold as the Health Information Custodian (HIC). Regarding the information provided in response to this request, the information may not accurately reflect or hold relevance for the purpose of the request. Therefore, although the responsive records provide information on patients who expired prior to surgery or procedure, it is unconfirmed whether the death is related to the wait. Furthermore, there may be instances of death before the surgery or procedure date that may not have been captured through reporting (i.e. outpatients in which the hospital may not have received notice of patient death or any other changes in medical condition).
