

**Lakeridge  
Health**

August 10, 2022

**VIA EMAIL & CANADA POST**

**RE: Release Letter; LH FOI File# 2022-003**

Dear Ms. Schulz,

We received your payment to receive records granted to you thru your request received under the *Freedom of Information and Protection of Privacy Act*.

Please find enclosed:

1. Data on the # of patients that died while on a waiting list for either a diagnostic scan or a consultation with a specialist in fiscal year 2021-2022
2. Data on the # of patients that died while on a waiting list for surgery or a procedure in fiscal year 2021-2022.

Please see interpretation notes for both cohorts on the final page.

If you have any questions or concerns, please contact me at my below noted contact information.

We would appreciate you using the request number assigned to your request in any further correspondence.

Sincerely,

A handwritten signature in black ink, appearing to read 'Christine Scollon-Umphrey', written over a horizontal line.

**Data\* re: FOI# 2022-003; number of patients that died while on a waiting list for surgery of a procedure in fiscal year 2021-2022.**

Lakeridge Health’s surgical procedure wait times are measured against the targets set by the provincial government. Information on provincial wait time performance and standards is published on the Health Quality Ontario (Ontario Health – Quality) website.

For ease of reference, please see the links below for further information:

- Wait time performance: <https://www.hqontario.ca/System-Performance/Wait-Times-for-Surgeriesand-Procedures>
- FAQs: <https://www.hqontario.ca/System-Performance/Measuring-SystemPerformance/Questions-and-Answers-on-Wait-Times>

**Interpretation Notes**

- Based on Health Card Number (not provided herein), some patients had two entries in the wait list, usually for multiple procedures such as MRI+CT, or CT Abdomen + CT Thorax, etc. As such, the total number of rows is not equal to the total number of unique patients.
- Please note that this report cannot be used to determine a correlation between the wait time for diagnostic imaging or surgical procedure and patient death.
- The information attached is representative of the cancellation date entered in the system for patients that died while on a wait list in FY2021/22, which may not be reflective of the specific date the patient died. Instead, this cancellation date represents when the wait list entry was cancelled or last updated.
- Further, please note that some scheduled procedures may have been in the process of being scheduled (01/01/9999) or rescheduled at the time of the patient’s death. In the case of the latter, scheduling may have been on hold pending a determination of readiness to proceed.
- Generally, scheduling may be impacted for a number of reasons, including patient-specific medical and non-medical circumstances such as: awaiting patient recovery, maturation (in the case of paediatric patients), medical stability (fitness for surgery), further work-up/testing results, other procedures and/or patient deferral. ‘Days Affecting Readiness to Treat’, as these aforementioned scenarios are termed in the Wait Time Information System (the source of this data), are not included herein.
