

May 30, 2023

**DECISION**

**Subject: Your FOI Request**

**Our File FOI-23-01**

Dear Kristen,

This letter is in response to your access request under the Freedom of Information and Protection of Privacy Act (The Act) for;

- **The number of patients that died on a waiting list for either a diagnostic scan or a consultation with a specialist for fiscal year 2022-2023**
- **Break the data out by procedure and case info., date the patient went on the waiting list, date for the meeting with a specialist or date for diagnostic scan (if scheduled), and date of cancellation.**
- **Also note the government's target time for providing the consultation or scan in question.**

**We are pleased to inform you that we will be providing partial access to the records requested. Wait times for Consultation with a Specialist are not captured. The responsive records are enclosed.**

**Please note:**

Freedom of Information legislation provides a right of access to information and data we hold as the Health Information Custodian (HIC). Regarding the information provided in response to this request, the information may not accurately reflect or hold relevance for the purpose of the request. Therefore, although the responsive records provide information on patients who expired before a diagnostic scan or consultation with a specialist, it is unconfirmed whether the death is related to the wait. Furthermore, there may be instances of death before a diagnostic scan or consultation with a specialist that may not have been captured through reporting (i.e., outpatients in which the hospital may not have received notice of patient death or any other changes in medical condition).

Mackenzie Health's diagnostic imaging & surgical procedure wait times are measured against the targets set by Ontario Health. Information on Provincial wait time performance and standards are published on the Ontario Health Quality website: <https://www.ontariohealth.ca/public-reporting/wait-times>

The information attached is representative of the cancellation date entered in the system for patients that died while on a wait list in FY2022/23, which may not be reflective of the specific date the patient died. Instead, this cancellation date represents when the wait list entry was cancelled or last updated.

Further, please note that some scans or procedures may have been in the process of being initially scheduled or rescheduled ('N/A' or 01/01/9999) at the time of the patient's death. In the case of the latter, scheduling may have been on hold pending a determination of readiness to proceed.

Generally, scheduling may be impacted for a number of reasons, including patient-specific medical and non-medical circumstances such as: awaiting patient recovery, maturation (in the case of paediatric patients), medical stability (fitness for surgery), further work-up/testing results, other procedures and/or patient deferral. 'Days Affecting Readiness to Treat,' as these aforementioned scenarios are termed in the Wait Time Information System (the source of this data), are not included herein.

If you disagree with this decision, you may request that the Information and Privacy Commissioner review your file. The Commissioner can be reached at:

**Registrar**  
2 Bloor St. E., Suite 1400  
Toronto, ON M4W 1A8  
Tel. (416) 326-3333

**Please note that you have 30 days from receipt of this decision to request a review from the Commissioner.**

If you have any questions about this decision, do not hesitate to contact the Privacy Office at (905) 883-1212, ext.7117 or via email at [Privacy@MackenzieHealth.ca](mailto:Privacy@MackenzieHealth.ca).

Sincerely,

## DECISION

**Subject: Your FOI Request**

**Our File FOI-23-02**

Dear Kristen,

This letter is in response to your access request under the Freedom of Information and Protection of Privacy Act (The Act) for;

- **The number of patients that died while on a waiting list for surgery or a procedure in fiscal year 2022-23**
- **Break the data out by procedure and case info., date the patient was referred to a specialist, decision date, date for the procedure and date of cancellation.**
- **Note the government's target time for providing the procedure in question.**

**We are pleased to inform you that we will be providing full access to the records requested. The responsive records are enclosed.**

**Please note:**

Freedom of Information legislation provides a right of access to information and data we hold as the Health Information Custodian (HIC). Regarding the information provided in response to this request, the information may not accurately reflect or hold relevance for the purpose of the request. Therefore, although the responsive records provide information on patients who expired before the surgery or procedure, it is unconfirmed whether the death is related to the wait. Furthermore, there may be instances of death before the surgery or procedure that may not have been captured through reporting (i.e., outpatients in which the hospital may not have received notice of patient death or any other changes in medical condition).

Mackenzie Health's diagnostic imaging & surgical procedure wait times are measured against the targets set by Ontario Health. Information on Provincial wait time performance and standards are published on the Ontario Health Quality website: <https://www.ontariohealth.ca/public-reporting/wait-times>

The information attached is representative of the cancellation date entered in the system for patients that died while on a wait list in FY2022/23, which may not be reflective of the specific date the patient died. Instead, this cancellation date represents when the wait list entry was cancelled or last updated.

Further, please note that some scans or procedures may have been in the process of being initially scheduled or rescheduled ('N/A' or 01/01/9999) at the time of the patient's death. In the case of the latter, scheduling may have been on hold pending a determination of readiness to proceed.

Generally, scheduling may be impacted for a number of reasons, including patient-specific medical and non-medical circumstances such as: awaiting patient recovery, maturation (in the case of paediatric patients), medical stability (fitness for surgery), further work-up/testing results, other procedures and/or patient deferral. 'Days Affecting Readiness to Treat,' as these aforementioned scenarios are termed in the Wait Time Information System (the source of this data), are not included herein.

If you disagree with this decision, you may request that the Information and Privacy Commissioner review your file. The Commissioner can be reached at:

**Registrar**

2 Bloor St. E., Suite 1400  
Toronto, ON M4W 1A8  
Tel. (416) 326-3333

**Please note that you have 30 days from receipt of this decision to request a review from the Commissioner.**

If you have any questions about this decision, do not hesitate to contact the Privacy Office at (905) 883-1212, ext.7117 or via email at [Privacy@MackenzieHealth.ca](mailto:Privacy@MackenzieHealth.ca).

Sincerely,
