RE: Access to Information Request – HE04-24G

Thank you for your Access to Information Request received in this office on April 18, 2023, pursuant to *The Freedom of Information and Protection of Privacy Act* (the Act) requesting:

“Please provide data on the number of patients that died while on a waiting list for surgery or a procedure in fiscal year 2022-23. Please break the data out by surgery/procedure and case information – date the patient was referred to a specialist, decision date, date for the procedure, and date of cancellation. Please also note the government's target time for providing the procedure in question. Note: Many hospitals/ health regions were able to identify such cases as they track the reason for cancelled operations.)

Time period: “April 1, 2022 to March 31, 2023”

In accordance with sections 5 and 8 of the Act, this is to inform you that your access request has been fully granted. Please find attached, 8 pages of records responsive to your request.

We note that a cancellation due to patient death does not necessarily infer that they died because they were waiting for surgery. For example almost 32% of the cancellations were for patients waiting for cataract surgery which is a non-fatal condition. Surgeries can be delayed because it is not medically safe for the patient to undergo surgery.

...2

Should you be dissatisfied with the response you receive or the manner in which your request is handled, as per section 49 of the Act you may, within one year of being given written notice or from the date deemed to be the last day of notice, apply for a formal process review by submitting a written request to:

Office of the Information and Privacy Commissioner
503, 1801 Hamilton Street
REGINA SK S4P 4B4

If you wish to contact us, please direct your correspondence to Tammy Davey at tammy.davey@health.gov.sk.ca. Please cite the assigned Ministry of Health identifier number HE04-24G when making an enquiry.

Yours truly,

Chantelle Probe
Director, Health Information and Privacy
Chief Privacy Officer

Surgical cancellations between 01-Apr-2022 and 31-Mar-2023 where the reason for cancellation was death of the patient

Access to Information request: Please provide data on the number of patients that died while on a waiting list for surgery or a procedure in fiscal year 2022-23. Please break the data out by surgery/procedure and case information – date the patient was referred to a specialist, decision date, date for the procedure, and date of cancellation. Please also note the government's target time for providing the procedure in question. Note: Many hospitals/ health regions were able to identify such cases as they track the reason for cancelled operations.) Time period: April 1, 2022 to March 31, 2023

The information is based on 23-Apr-2023 refresh of the Saskatchewan surgical registry data mart. There are 402 records for this time period.

The Date of Referral to Surgeon is not a mandatory field so is missing for most records.

The Booking Date is the date that the booking form was received by surgical scheduling office.

The Cancellation Date is the date when the surgical booking was removed from the wait list. The cancellation date may not be the date of death. It could be the date that the cancellation was recorded in the system.

A cancellation due to patient death does not necessarily infer that they died because they were waiting for surgery. For example 32% of these cancellations were for patients waiting for cataract surgery which is a non-fatal condition.

The Saskatchewan surgical registry does not contain contextual information as to why a patient may have waited. In order to determine whether a wait time contributed to a negative patient outcome, a review of each case file with care providers would be required.

A data quality report to identify patients on the wait list that had died was implemented in January 2023. This resulted in an increase in the number of cancellations due to death in February 2023 as bookings identified in this new report were cancelled.

Since emergency surgeries are not put on a waiting list, emergency bookings where the patient died are excluded in the table below. Waitlisted endoscopies are also excluded from these counts as data for this time period is incomplete.
