Hi Colin,

I've confirmed that we no longer have this information. I recommend following up with AHS.

Kind regards,

Michael

Hi Colin,

Apologies for the miscommunication last year.

I connected the FOIP office with the waitlist team when the request came in this year, so the data may no longer be available here. I will follow up with the waitlist team and confirm though. Due to absences on their side I won't be able to do that until mid-August. I've set a reminder to follow-up with you as soon as I have more details. You can follow-up with me the last week of August if you haven't heard back from me by then.

Thanks,

Michael

Yes, we were told through FOI that they don't have the info.

I believe we were told that last year before it was suggested we speak with your department to obtain the data outside the FOI process.

Do you think it will still be possible to get the data?

Hi Colin,

I think this came through the FOIP office earlier this year. We're in the process of decommissioning the application that collected this information at Health, so it may only be available from AHS now.

Did you receive a response from the FOIP office?

Thanks,

Michael

Hi Chas/Michael,

Thank you once again for your help last year with our request for data on patients passing away while waiting for treatment (REQ-06946).

Would it be possible to receive the same request for data but for the 2023-24 fiscal year?

Thank you,

Colin Craig
