Good afternoon Kristen,

We are writing in response to your request for the following records:

Please provide data on the number of patients that died while on a waiting list for surgery or a procedure in fiscal year 2024-25. Please break the data out by procedure/surgery and case info – date the patient was referred to a specialist, decision date, date for the procedure and date of cancellation. Please also note the government's target time for providing the procedure in question. (Note: many hospitals/health regions were able to identify such cases as they track the reason for cancelled operations). The timeframe for this request is April 1, 2024 to March 31, 2025.

*Start date**2024-04-01**End date**2025-03-31*

Please see attached for the responsive records.

You may request a review of VCH's response within 30 working days of receiving this email by writing to the following address:

Office of the Information and Privacy Commissioner for British Columbia

PO Box 9038, Stn. Prov. Govt.

Victoria, BC V8W 9A4

Telephone: (250) 387-5629

Fax: (250) 387-1696

If you choose to request a review by the Office of the Information and Privacy Commissioner, you should include with your request:

- a copy of your original request for records; and

- a copy of this response.

Please feel free to contact me if you have any questions.

Regards,

Vivian

Vivian Law (she/her)

Freedom of Information Advisor

VCH FOI 2025-F-259 - Responsive Records.pdf

765K

Number of patients who passed away in FY 2024/25 who were on the surgical waitlist for VCH

Total number of diseased patients: **215***

**Note: this number is dependent on clerical staff receiving accurate information from the patient's family during the booking process. As a practice, VCH only tracks cause of death for patients on a surgical waitlist if they are actively receiving care at one of our sites. However, the total number of patients identified may also include those who passed away while not admitted to a VCH site and the cause of death is not captured in all cases. As such, this information should not be used to establish a direct correlation between surgical wait times and patient death.*

Patient	Booking Form Received Date	Surgery Cancelled Date	Hospital	Reason for Cancellation	Procedure Description
1	12-Mar-24	2-Apr-24	Vancouver General Hospital	PATIENT DECEASED	MICROLARYNGOSCOPY WITH LASER
2	5-Mar-24	3-Apr-24	St. Paul's Hospital	PATIENT DECEASED	CREATION FISTULA ARTERIOVENOUS
