Dear Kristen:

RE: Access to Information Request – HE013-27G

Thank you for your Access to Information Request received in this office on April 30, 2026, pursuant to *The Freedom of Information and Protection of Privacy Act* (the Act) requesting:

> *"Please provide data on the number of patients that died while on a waiting list for surgery or a procedure in fiscal year 2025-26. Please break the data out by procedure/surgery and case info - date the patient was referred to a specialist, decision date, date for the procedure and date of cancellation. Please also note the government's target time for providing the procedure in question. (Note: many hospitals/health regions were able to identify such cases as they track the reason for cancelled operations). Date range: April 1, 2025 to March 31, 2026"*

In accordance with sections 5 and 8 of the Act, this is to inform you that your access request has been fully granted. Please find attached a 6-page record responsive to your request.

Please note that a cancellation due to patient death does not necessarily infer that they died because they were waiting for surgery. For example, 36% of these cancellations were for patients waiting for cataract surgery which is a non-fatal condition.

...2

Should you be dissatisfied with the response you receive or the manner in which your request is handled, you may apply for a formal process review by submitting a written request in accordance with section 49 of the Act to:

Office of the Information and Privacy Commissioner
503, 1801 Hamilton Street
REGINA SK S4P 4B4
Or by email: intake@oipc.sk.ca

If you wish to contact us, please direct your correspondence to Tammy Davey, Senior Policy Analyst at tammy.davey@health.gov.sk.ca. Please cite the assigned Ministry of Health identifier number HE013-27G when making an enquiry.

Yours truly,

Lisa Dietrich
Director, Health Information and Privacy
Chief Privacy Officer

cc: Tammy Davey, Senior Policy Analyst

Surgical cancellations between 01-Apr-2025 and 31-Mar-2026 where the reason for cancellation was death of the patient

Access to Information request: Please provide data on the number of patients that died while on a waiting list for surgery or a procedure in fiscal year 2025-26. Please break the data out by procedure/surgery and case info - date the patient was referred to a specialist, decision date, date for the procedure and date of cancellation. Please also note the government's target time for providing the procedure in question. (Note: many hospitals/health regions were able to identify such cases as they track the reason for cancelled operations). Date range: April 1, 2025 to March 31, 2026

The information is based on the 17-May-2026 refresh of the Saskatchewan surgical registry data mart. There are 317 records for this time period.

Priority levels switched from surgeon priority levels to diagnosis-based priority levels on 01-Apr-2024. Bookings made before 01-Apr-2024 have had the surgeon priority levels mapped to the closest diagnosis-based priority level.

The Date of Referral to Surgeon was not a mandatory field until 01-Apr-2025 so it is missing for some records.
The Booking Date is the date that the booking form was received by surgical scheduling office.

The Cancellation Date is the date when the surgical booking was removed from the wait list. The cancellation date may not be the date of death. It could be the date that the cancellation was recorded in the system.

A cancellation due to patient death does not necessarily infer that they died because they were waiting for surgery. For example 36% of these cancellations were for patients waiting for cataract surgery which is a non-fatal condition.

The Saskatchewan surgical registry does not contain contextual information as to why a patient may have waited. In order to determine whether a wait time contributed to a negative patient outcome, a review of each case file with care providers would be required.

Since emergency surgeries are not put on a waiting list, emergency bookings where the patient died are excluded in the table below. Waitlisted endoscopies, interventional cardiology, interventional radiology, and neuroendovascular procedures are also excluded from these counts for comparisons over time.

Procedure Group	Priority Level	Date of Referral to Surgeon	Booking Date	Scheduled Date	Cancellation Date
